## DETAILED ACTION

### *Information Disclosure Statement*

1. The references listed in the Information Disclosure Statement filed on June 07, 2004 and June 14, 2006 has been considered by the examiner (see attached PTO-1449 form).

### *Claim Rejections - 35 USC § 112*

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. **Claim 56** is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

**Claim 56** contains the trademark/trade name floptical disk and floptical drive.

Where a trademark or trade name is used in a claim as a limitation to identify or describe a particular material or product, the claim does not comply with the requirements of 35 U.S.C. 112, second paragraph. See *Ex parte Simpson*, 218 USPQ 1020 (Bd. App. 1982). The claim scope is uncertain since the trademark or trade name cannot be used properly to identify any particular material or product. A trademark or trade name is used to identify a source of goods, and not the goods themselves. Thus, a trademark or trade name does not identify or describe the goods associated with the trademark or trade name. In the present case, the trademark/trade name is used to identify/describe a disk and, accordingly, the identification/description is indefinite.

### ***Double Patenting***

4. **Claims 21-88** are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-22 of U.S. Patent No. 6,721,954. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 1-22 of the instant application is broader than the claims 21-88 of the instant application.

In view of the above, it is noted that allowing claims 21-88 of the instant application would result in an unjustified or improper timewise extension of the "right to exclude" granted by a patent. (See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 Fed. Cir. 1993).
